Editorial Review

Review

The publishers hope that religious houses will find them valuable for reading aloud, parishes as a source for sermon notes and magazines, homes as an inspiration for the family, and schools as a valuable background to religious studies. Judging by the first two volumes there can be little doubt that these needs will be met. The work will also be useful to universities and public libraries. It must surely be for English readers the best work of reference in its field, and its guidance in further reading will be of value to students.
