Editorial Review

Review

"The thing that Straubhaar seems to do better than most is be "today." It is very strong on current issues with up-to-date examples in each media form."

"The Straubhaar text is a well-written and comprehensive look at media, culture and technology that affect mass communications consumers and the practice of journalism. The fresh mix of explanations, references and illustrative graphics sets it apart from other books covering a similar range of topics, and gives students relevant food for thought toward sharpening their media literacy or considering communications careers."
