Calculus for The Life Sciences By Sebastian J. Schreiber, Karl Smith, Wayne Getz

Authored by two distinguished researchers/teachers and an experienced, successful textbook author, *Calculus for Life Sciences* is a valuable resource for Life Science courses. As life-science departments increase the math requirements for their majors, there is a need for greater mathematical knowledge among students. This text balances rigorous mathematical training with extensive modeling of biological problems. The biological examples from health science, ecology, microbiology, genetics, and other domains, many based on cited data, are key features of this text.
