Governing States and Localities By Kevin B. Smith

The Great Recession's impact in the United States is far reaching and the choices facing state and local governments are sometimes stark: trade-offs between roads and schools, public safety and health care. The new edition of Governing States and Localities continues to respond to this reality with a sharp focus on economic and budget pressures. The Fourth Edition has been thoroughly revised and updated. Well-designed pedagogical features ask students to apply the comparative method ("A Difference that Makes a Difference"), to see how intergovernmental relations impact localities ("Local Focus"), and to see examples of how policies are actually implemented ("Policy in Practice"). An engaging full-color design, a vivid selection of photographs, updated tables and figures, and a marginal glossary all combine to keep students focused and learning.

Editorial Review

Review

"Governing States and Localities is obviously developed with a great sense of how the political, institutional, and policy 'parts' fit together. There is plenty for students to appreciate. I have received more unsolicited positive comments regarding this textbook than any other I've used. Every skill level can learn something." -- Scott Moore 20121227 "I have looked at a lot of state and local books and Governing States and Localities is head and shoulders above the rest. It is thorough and engaging. Students read it and understand it." -- Lori Riverstone-Newell 20121227 "Governing States and Localities' comparative method provides a comprehensive, thoughtful, and systematic approach to the study of state and local government. The blend of theory and practical examples engages my students and challenges them to think about how sub national government affects their day-to-day lives." -- Dana Michael Harsell 20121227 "Governing States and Localities covers all of the major ideas in the literature well and its graphics are a real strength. My students read it and find it engaging. The layout is fabulous and works well in lecture form too." -- David Peterson "My students respond favorably to Governing States and Localities. I'm particularly impressed with its tables, figures, and maps, which are great learning tools that I've found really helpful in getting across lecture points." --John Woodcock
