Eerdmans Commentary on the Bible From imusti

No one familiar with the Bible needs to be told that it is a truly remarkable work. But it takes help to understand this ancient collection of diverse forms of literature written by different people across many centuries. The *Eerdmans Commentary on the Bible (ECB)* is the finest, most up-to-date single-volume Bible handbook now available.

Written by world-class Bible scholars, the *ECB* encapsulates in nontechnical language the best of modern scholarship on the sixty-six biblical books plus the Apocrypha. The only one-volume Bible commentary to cover *all* the texts (even including *I Enoch*) regarded by one or more Christian churches as canonical, the *ECB* provides reader-friendly treatments and succinct summaries of each section of the text that will be valuable to scholars, students and general readers alike.

The primary objective of this work is to clarify the meaning of each section of the Bible. Rather than attempting a verse-by-verse analysis (virtually impossible in a one-volume work), the *ECB* focuses on principal units of meaning -- narrative, parable, prophetic oracle, section of argument, and so on -- highlighting their interconnectedness with the rest of the biblical text. The volume also addresses and answers major issues -- including the range of possible interpretations -- and refers readers to the best fuller discussions. Beyond providing reliable, informative commentary, this hefty volume also includes thirteen introductory and context-setting articles that do justice to the biblical documents both as historical sources and as scriptures.

The sixty-seven contributors to the *ECB* come from a wide variety of backgrounds and are acknowledged leaders in the field of biblical studies. Their contributions stand out either for their fresh interpretations of the evidence, or for their way of asking new questions of the text, or for their new angles of approach. While the translation of choice is the New Revised Standard Version, many of the contributors offer their own vivid translations of the original Hebrew or Greek.

Cutting-edge, comprehensive, and ecumenical, the *ECB* is both a fitting climax to the rich body of interconfessional work undertaken in the latter part of the twentieth century and a worthy launching pad for biblical study in the twenty-first.

Special features of the *ECB*

- The only one-volume commentary to cover *all* the texts (including the Apocrypha and *1 Enoch*) regarded as canonical
- Thirteen major essays that introduce each section of Scripture and its study
- Encapsulates in nontechnical language the best of modern scholarship
- Includes superb bibliographies and an extensive subject index
- Written by sixty-seven first-rate Bible scholars
- Designed for use by scholars, students, pastors, and general readers

Editorial Review

From Publishers Weekly

An international team of 63 biblical scholars offers this judicious and solid introduction to the varieties of biblical literature. Like similar one-volume commentaries from Oxford and HarperCollins, this one covers the Apocrypha, though the Eerdmans commentary is more comprehensive, adding an expansive chapter on the oft-overlooked pseudo-epigraphical book of 1 Enoch. Each entry begins with some kind of overview of the biblical or apocryphal book in question, then proceeds to analyze the book section by section rather than verse by verse (a real boon for nonspecialists who often get lost in abstruse, highly technical discussions). The commentary uses the New Revised Standard Version, though some contributors add their own insights about the meanings of contested Hebrew or Greek terms. The essayists draw upon and summarize previous biblical scholarship and sometimes offer revisionist explanations (as with Morna Hooker's passionate and well-argued reinterpretation of Philemon).

Review

Catholic Library World

"A veritable treasure chest of sound biblical scholarship. . . The commentary is easily accessible to the scholar, student, pastor, and general reader and should surely be among the essential resources for any high school, college, or seminary library."

Catholic Biblical Quarterly

"Comprehensive and ecumenical in scope and reader-friendly in format, the *ECB* is the finest, most up-to-date single-volume biblical commentary now available. Written by well-known scholars, the *ECB* encapsulates in nontechnical language the cutting edge of modern scholarship on the sixty-six biblical books of the Protestant canon plus the Apocrypha. . . Its succinct interpretations of the sacred books will be helpful to scholars, pastors, students, and general readers. . . An invaluable 'one-stop' guide."

Concordia Journal

"The *Eerdmans Commentary on the Bible* is the finest, most up-to-date single-volume Bible handbook now available. . . A virtual Goliath among midgets."

Lawrence Boadt

"The new *Eerdmans Commentary on the Bible* has many special strengths. The first is that it reflects the growing trend in current biblical scholarship to focus on the overall meaning of each book of the Bible. Top scholars provide all of the critical and historical information normally demanded of a good commentary, but rather than offer verse-by-verse analyses that too often become trapped on small points of exegesis, they examine the major literary units of each biblical book, showing how they fit together to form a dramatic unity. The second strength of this commentary is that it includes the Catholic deuterocanonical books, the pseudepigraphical book *1 Enoch*, and the Qumran literature. A third strength is the book's very helpful extended essays on notable themes and issues in biblical studies interspersed within the commentaries themselves, such as the treatment of the special character of prophetic speech and the importance of the temple, both found in the introductory section of Isaiah. Overall, this is a very reader-friendly commentary that, at the same time, does not sacrifice anything of concern to scholars."

Susan R. Garrett

"The *Eerdmans Commentary on the Bible* will be a rich and enduring resource for all who seek to understand the Bible in its literary, historical, and theological dimensions. The essays on biblical books are written by highly respected scholars and present the best fruits of recent research in ways that are engaging and persuasive. Moreover, the wide-ranging introductory articles will serve everyone from beginning students of Scripture to scholars wanting to refresh their knowledge. Recommended for churches, students, pastors, and scholars."

Tremper Longman III

"Utilizing the considerable talents of scholars representing a broad theological spectrum, the *Eerdmans Commentary on the Bible* provides readers with a concise, stimulating, sometimes provocative reading of the biblical text. I commend this volume to all who want a handy scholarly resource as they grapple with the meaning of the text. "

John J. Collins

"The *Eerdmans Commentary on the Bible* contains scholarship that is both international and ecumenical, including contributions from Catholics as well as Protestants. Most of the contributors have well-established international reputations, and several are at the top of their field. Especially welcome is the inclusion of the Apocrypha, two essays on the Dead Sea Scrolls, an introduction to the Pseudepigrapha, and even a commentary on 1 Enoch, which may be unique to a Bible commentary of this kind. The *Eerdmans Commentary on the Bible* is a very useful resource for college and seminary students and those who teach them. "

Frank J. Matera

"Comprehensive in scope and reader-friendly in format, *Eerdmans Commentary on the Bible* provides students, pastors, and interested lay folk with a series of reliable commentaries on every book of the Bible, including the Old Testament Apocrypha and 1 Enoch. For those seeking a single volume that will provide them with reliable commentary on Scripture, and for teachers looking for a one-volume commentary to put into the hands of their students, the *Eerdmans Commentary* is just the right work."

Daniel J. Harrington

"Produced by an ecumenical team of biblical scholars from all over the English-speaking world, this one-volume commentary on the entire Bible will be a great resource for theology students, religious educators, and pastors. The serious attention given to the Old Testament Apocrypha (and 1 Enoch) is an especially welcome feature. The contributors are distinguished and diverse, the scholarship is solid and up to date, and the format is inviting and user-friendly."

Times Literary Supplement

"There are many gems here, and the *ECB* will meet the needs of much of its intended readership: 'scholars, students, pastors, and general readers'."

From the Inside Flap

No one familiar with the Bible needs to be told that it is a truly remarkable work. But it takes help to understand this ancient collection of diverse forms of literature written by different people across many centuries.
