

Prometheus the Awakener: an Essay on the Archetypal Meaning of the Planet Uranus (Dunquin Series 21)

By Richard Tarnas

Prometheus the Awakener: an Essay on the Archetypal Meaning of the Planet Uranus (Dunquin Series 21) By Richard Tarnas

Prometheus the Awakener is considered by many to be one of the finest astrological essays ever written. It has also been much praised by depth psychologists for its precise linking of an archetypal perspective in biography and history to the macrocosm of planetary movements, providing an invaluable new bridge between astrology and psychology. Widely referred to in other astrological writings, earlier partial versions of the essay have been published in numerous journals in both Europe and the U.S. Spring offers here the full monograph in a single volume, including a new preface as well as an afterword.

Editorial Review

Review

"An impressive investigation of what Uranus really means, especially in regard to creative and revolutionary breakthroughs."

- Stephen Arroyo, author of *Astrology, Karma, and Transformation*

"A classic. . . . It should be in the library of every person with an interest in astrology--and in everyone else's as well."

- Barbara Morgan, ISIS Institute

"Eureka...a truly extraordinary astrology book is born. I don't recall ever reading a more thoroughly researched yet compelling astrology book....A joy."

- Samuel Heaton, The Mountain Astrologer

"The exquisite depth and complexity of the astrological language deserves, but rarely finds, an interpretive voice such as Richard Tarnas's. Prometheus the Awakener is not only a gift to the spiritual-intellectual community, but a great essay to give to lively sceptics."

- Caroline W. Casey, Center for Visionary Activism

"Though ostensibly directed towards an astrological audience, this work is of considerable interest to non-astrologers as well, for its eloquent and often brilliant discussion of astrological philosophy, particularly the question of archetypes. Tarnas's description of the uncanny way astrological patterns appear to coincide with events or destiny patterns in the lives of both individuals and societies will also provide provocative reading for those who are skeptically inclined toward astrology."

- Ray Grasse, The Quest

From the Inside Flap

"A brilliant study of the dynamics of intellectual, cultural, and sociopolitical breakthroughs, Prometheus the Awakener is itself a revolutionary and groundbreaking work. . . . A major contribution to both depth psychology and astrology."

- Stanislaw Grof, author of *Psychology of the Future* and *Realms of the Human Unconscious*

From the Back Cover

"Prometheus the Awakener is absolutely brilliant. . . . It is by far the best thing I have read in this area of the archetypes. It opens that dimension we have all known is there but have hesitated to disturb. Astrology has kept the archetypes alive, we have all worked with them, but how flat, abstract, remote, dry this all now seems. . . . Like breaking through into the world of real living ideas after watching the shadow show. . . . A living astrology is being born again."

- Charles Harvey, President of the British Astrological Association

"Superb. . . . Possibly the most important contribution to the understanding of the symbolism of Uranus since

the days of its discovery."

- Robert Hand, author of *Planets in Transit* and *Horoscope Symbols*
