**Wilderness Medicine: Expert Consult Premium Edition - Enhanced Online Features and Print, 6e (Auerbach, Wilderness Medicine)** By Paul S. Auerbach MD MS FACEP FAWM

**Quickly and decisively manage any medical emergency you encounter in the great outdoors with Wilderness Medicine!** World-renowned authority and author **Dr. Paul Auerbach** and a team of experts offer proven, practical, visual guidance for effectively diagnosing and treating the full range of emergencies and health problems encountered in situations where time and resources are scarce. Every day, more and more people are venturing into the wilderness and extreme environments, or are victims of horrific natural disasters...and many are unprepared for the dangers and aftermath that come with these episodes. Whether these victims are stranded on mountaintops, lost in the desert, injured on a remote bike path, or ill far out at sea, this indispensable resource--now with **online access** at [www.expertconsult.com](http://www.expertconsult.com) for greater accessibility and portability--equips rescuers and health care professionals to **effectively address and prevent injury and illness in the wilderness!** This textbook is widely referred to as "**The Bible of Wilderness Medicine.**"

- **Be able to practice emergency medicine outside of the traditional hospital/clinical setting** whether you are in remote environments, underdeveloped but highly populated areas, or disaster areas, are part of search and rescue operations, or dealing with casualties from episodes of extreme sports and active lifestyle activities.
- **Face any medical challenge in the wilderness with expert guidance:** Dr. Auerbach is a noted author and the world's leading authority on wilderness medicine. He is a founder and Past President of the Wilderness Medical Society, consultant to the Divers Alert Network and many other agencies and organizations, and a member of the National Medical Committee for the National Ski Patrol System.
- **Handle everything** from frostbite to infection by marine microbes, not to mention other diverse injuries, bites, stings, poisonous plant exposures, animal attacks, and natural disasters.
- Grasp the essential aspects of **search and rescue.**
- **Respond quickly and effectively by improvising with available materials.**

- **Improve your competency and readiness** with the latest guidance on volcanic eruptions, extreme sports, splints and slings, wilderness cardiology, living off the land, aerospace medicine, mental health in the wilderness, tactical combat casualty care, and much more.
- **Meet the needs and special considerations of specific patient populations** such as children, women, elders, persons with chronic medical conditions, and the disabled.
- **Make smart decisions** about gear, navigation, nutrition, and survival.
- **Be prepared for everything** with expanded coverage on topics such as high altitude, cold water immersion, and poisonous and venomous plants and animals.
- **Get the skills you need now** with new information on global humanitarian relief and expedition medicine, plus expanded coverage of injury prevention and environmental preservation.
- **Get guidance on the go** with fully searchable text plus bonus images, tables and video clips **online** at **www.expertconsult.com**.

Ensure patient survival in the wilderness with Dr. Paul Auerbach's indispensable reference.

### Editorial Review

#### Review

"There is a reason a book makes it to a sixth edition. This is the definitive book on wilderness medicine. It is an excellent, thorough book on critical and exciting concepts in this still expanding realm. The topics are concise yet cover a broad spectrum of environments and clinical situations not commonly seen. A number of the subjects are not exclusive to wilderness situations and are applicable to everyday life in the emergency room and hospital. Although the book is large and heavy, possibly limiting its use in the field, the online version (access is provided with the purchase of the book) may be a viable option for those with portable devices." - Michael D. Zwank, MD, RDMS, FACEP (University of Minnesota Medical School) **Doody 4 stars!**

"When on vacation, who knows when you might need to treat a Gila-monster bite or use dental floss to close scalp lacerations? '**Wilderness Medicine**,' edited by **Paul S. Auerbach**, professor of surgery at Stanford University School of Medicine's emergency division, has the answers." - *Laura Landro, Wall Street Journal*

#### About the Author

Dr. Paul S. Auerbach, FACEP, FAWM, is the Redlich Family Professor of Surgery in the Division of Emergency Medicine at Stanford University School of Medicine. He is the world's leading expert on wilderness medicine and a prolific author. He is the Editor of Wilderness Medicine, and author of Medicine for the Outdoors and Field Guide to Wilderness Medicine.

Dr. Auerbach holds his MD from Duke and completed his internship at Dartmouth and residency at UCLA. He is certified by the American Board of Emergency Medicine. He has been recognized as a Hero of Emergency Medicine by the American College of Emergency Physicians and received the New Orleans Grand Isle Award for Science from the Academy of Underwater Arts and Sciences, the Founders Award from the Wilderness Medical Society, and the Outstanding Contribution in Education Award from the American College of Emergency Physicians, among others. Dr. Auerbach has served as a volunteer physician in Haiti, Nepal, and Guatemala.
