Editorial Review

From the Back Cover

This is the most complete and accurate critique of the fossils of the so-called 'ape men.' The myth of human evolution is completely demolished. The last chapter, repudiating the compromising views of many modern evangelicals on this subject, is illuminating. Lubenow has made an invaluable contribution to scientific biblical creationism.

Users Review

From reader reviews:

Marian Perkins:

The book Bones of Contention: A Creationist Assessment of Human Fossils make one feel enjoy for your spare time. You can use to make your capable more increase.
