Pro Drupal as an Enterprise Development Platform (Expert's Voice in Web Development) By Jamie Kurtz, Thomas Besluau

In Pro Drupal as an Enterprise Development Platform authors Jamie Kurtz and Thomas Besluau explain how developers can save themselves time and money, and build their applications faster with fewer bugs by using the Drupal CMS as a foundation for their projects. The days when custom client applications were built entirely from scratch are over. Today, it makes business sense to use a flexible, highly scalable framework such as Drupal, Joomla or DotNetNuke as a foundation. This book focuses on why Drupal makes a particularly strong choice for the majority of developers.

With an unprecedented level of community support, tens of thousands of well-proven plug-ins and modules available for download, and advanced content management rules and configuration engines Drupal is flexible enough to provide a firm base upon which almost all enterprise application developers can build their own custom solutions.

As this book will make clear, it is no longer necessary for developers to write complex applications entirely from scratch for each of their clients. Instead, they should begin by using an enterprise-class CMS like Drupal to provide a robust foundation for them so that they can concentrate their time and skills into solving the business-specific problems of each individual client maximizing the value that they add to each assignment.

Editorial Review

Users Review

From reader reviews:

Helen Thibodeaux:

A lot of people always spent their own free time to vacation or even go to the outside with them friends and family or their friend. Did you know? Many a lot of people spent these people free time just watching TV, or even playing video games all day long. If you need to try to find a new activity here is look different you can read a new book. It is really fun for yourself. If you enjoy the book that you just read you can spent the whole day to reading a book. The book Pro Drupal as an Enterprise Development Platform (Expert's Voice in Web Development) it is extremely good to read. There are a lot of those who recommended this book. These were enjoying reading this book. In case you did not have enough space to create this book you can buy typically the e-book. You can m0ore very easily to read this book from a smart phone. The price is not to cover but this book has high quality.

Paul Kindig:

Playing with family within a park, coming to see the sea world or hanging out with buddies is thing that usually you have done when you have spare time, then why you don't try matter that really opposite from that. One particular activity that make you not experience tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love Pro Drupal as an Enterprise Development Platform (Expert's Voice in Web Development), you could enjoy both. It is very good combination right, you still want to miss it? What kind of hang-out type is it? Oh can happen its mind hangout people. What? Still don't understand it, oh come on its known as reading friends.

Harold Dalton:

Beside this Pro Drupal as an Enterprise Development Platform (Expert's Voice in Web Development) in your phone, it may give you a way to get nearer to the new knowledge or info. The information and the knowledge you can got here is fresh from oven so don't end up being worry if you feel like an outdated people live in narrow village. It is good thing to have Pro Drupal as an Enterprise Development Platform (Expert's Voice in Web Development) because this book offers to your account readable information. Do you sometimes have book but you rarely get what it's all about. Oh come on, that would not happen if you have this in your hand. The Enjoyable arrangement here cannot be questionable, such as treasuring beautiful island. Use you still want to miss this? Find this book along with read it from right now!

Robert Garcia:

As a college student exactly feel bored for you to reading. If their teacher inquired them to go to the library in order to make summary for some publication, they are complained. Just minor students that has reading's soul or real their pastime. They just do what the trainer want, like asked to go to the library. They go to at this time there but nothing reading critically. Any students feel that reading is not important, boring in addition to can't see colorful photos on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Pro Drupal as an Enterprise Development Platform (Expert's Voice in Web Development) can make you really feel more interested to read.
