## Building Code Requirements for Structural Concrete (ACI 318-05) and Commentary (ACI 318R-05) By ACI Committee 318, ACI Committee 318

The code portion of this document covers the design and construction of structural concrete used in buildings and where applicable in nonbuilding structures.

Among the subjects covered are: drawings and specifications; inspection; materials; durability requirements; concrete quality, mixing and placing; formwork; embedded pipes; construction joints; reinforcement details; analysis and design; strength and serviceability; flexural and axial loads; shear and torsion; development and splices of reinforcement; slab systems; walls; footings; precast concrete; composite flexural members; prestressed concrete; shells and folded plate members; strength evaluation of existing structures; special provisions for seismic design; structural plain concrete; strut-and-tie modeling in Appendix A; alternative design provisions in Appendix B; alternative load and strength-reduction factors in Appendix C; and anchoring to concrete in Appendix D.

The quality and testing of materials used in construction are covered by reference to the appropriate ASTM standard specifications. Welding of reinforcement is covered by reference to the appropriate ANSI/AWS standard.

Uses of the code include adoption by reference in general building codes, and earlier editions have been widely used in this manner. The code is written in a format that allows such reference without change to its language. Therefore, background details or suggestions for carrying out the requirements or intent of the code portion cannot be included. The commentary is provided for this purpose. Some of the considerations of the committee in developing the code portion are discussed within the commentary, with emphasis given to the explanation of new or revised provisions. Much of the research data referenced in preparing the code is cited for the user desiring to study individual questions in greater detail. Other documents that provide suggestions for carrying out the requirements of the code are also cited.

### **Editorial Review**

#### **Users Review**

##### **From reader reviews:**

##### **Charlotte Lee:**

The feeling that you get from Building Code Requirements for Structural Concrete (ACI 318-05) and Commentary (ACI 318R-05) is the more deep you looking the information that hide inside words the more you get thinking about reading it. It doesn't mean that this book is hard to be aware of but Building Code Requirements for Structural Concrete (ACI 318-05) and Commentary (ACI 318R-05) giving you thrill feeling of reading. The article author conveys their point in a number of way that can be understood by anyone who read this because the author of this book is well-known enough. That book also makes your vocabulary increase well. That makes it easy to understand then can go together with you, both in printed or e-book style are available. We highly recommend you for having that Building Code Requirements for Structural Concrete (ACI 318-05) and Commentary (ACI 318R-05) instantly.

##### **Carolyn Rolon:**

The reserve untitled Building Code Requirements for Structural Concrete (ACI 318-05) and Commentary (ACI 318R-05) is the guide that recommended to you you just read. You can see the quality of the book content that will be shown to a person. The language that article author use to explained their ideas are easily to understand. The copy writer was did a lot of investigation when write the book, to ensure the information that they share for you is absolutely accurate. You also will get the e-book of Building Code Requirements for Structural Concrete (ACI 318-05) and Commentary (ACI 318R-05) from the publisher to make you a lot more enjoy free time.

##### **John Ray:**

Your reading sixth sense will not betray a person, why because this Building Code Requirements for Structural Concrete (ACI 318-05) and Commentary (ACI 318R-05) guide written by well-known writer who really knows well how to make book which might be understand by anyone who have read the book. Written in good manner for you, dripping every ideas and creating skill only for eliminate your current hunger then you still question Building Code Requirements for Structural Concrete (ACI 318-05) and Commentary (ACI 318R-05) as good book not just by the cover but also by content. This is one publication that can break don't judge book by its protect, so do you still needing another sixth sense to pick this particular!?! Oh come on your reading through sixth sense already alerted you so why you have to listening to another sixth sense.

**Calvin Copher:**

In this era which is the greater person or who has ability to do something more are more valuable than other. Do you want to become among it? It is just simple solution to have that. What you must do is just spending your time not very much but quite enough to get a look at some books. One of many books in the top record in your reading list is Building Code Requirements for Structural Concrete (ACI 318-05) and Commentary (ACI 318R-05). This book that is qualified as The Hungry Hills can get you closer in growing to be precious person. By looking way up and review this reserve you can get many advantages.
