Quantum Poker: Summing Up Everything You will Ever Need to Know About Poker By Derric Haynie

Quantum Poker is the first poker strategy book to completely and correctly define how to make the best in-game decisions by employing unprecedented methods. This book will tie together basic and advanced concept in what is called "The Unified Theory of Poker," and will replace the common poker term "EV" - Expected Value - with a more accurate term, AEV - Average Enumerated Value. While most examples will be given in NLHE, Quantum Poker is uniquely designed to help improve your overall game. From hand range and combinatorical analysis, to equity distribution by street, you will learn the necessary tools to be the best poker player that you can possibly be.
