### Editorial Review

From the Author

**Stacey Turner** is extremely interested in various types of diets and the impact that they really have on any individual that tries them. She is also interested in the impact that these diets have on improving the health of individuals. As a result of this interest she has written a lot of books on various diets from the macrobiotic to the pregnancy diet and so on.

She always had a problem maintaining her weight and was also prone to certain illnesses as a child and a part of her research was geared at finding a solution for her own problem. As she did research she found more and more options and decided to share what she was learning through her books as she was well aware that there were others like her out there trying to find the right solution for their problems.

Stacey is not trying to convince anyone that one diet is better than the next, she opts instead to present all the facts and leave the reader to make the final decision at the end of it all whether or not they will opt to fully try a diet or simply modify what they currently eat to include some of the options.
