*This access code card provides access to the Enhanced Pearson eText.*

Engaging and cross-disciplinary, *Practical Research: Planning and Design* is a do-it-yourself, understand-it-yourself manual for planning and conducting research. Suitable for a wide variety of courses in basic research methodology, the text guides the reader, step-by-step, from the selection of a problem, through the process of conducting authentic research, to the preparation of a completed report, with practical suggestions throughout. The authors emphasize the idea that quality research demands planning and design, and they provide what is needed for readers to be able to execute their own research projects effectively and professionally.

**Improve mastery and retention with the Enhanced Pearson eText\***

### Editorial Review

Review

#### From reviews of the text:

*“The primary strengths ... are the authors’ capacity to provide a succinct overview to research in its broadest sense, while offering enough depth to both engage the reader and provoke an interest in further study. For this reason, Practical Research: Planning and Design represents a seminal introduction to the subject of research and remains a helpful reference tool along the way for novice and experienced researchers alike.”*

– Robert Hayden, Michigan State University

“[Practical Research] is written in a very user-friendly style for novice researchers. It gives a good overview of research methodology in a very concise manner. I like the extended examples.”

– Brian Belland, Utah State University

About the Author

**Paul D. Leedy** is late of the American University.

**Jeanne Ellis Ormrod** holds a B.A. degree in psychology from Brown University and M.S. and Ph.D. degrees from The Pennsylvania State University. For more than twenty years she was a faculty member at the University of Northern Colorado, where she taught courses in learning and cognition, educational psychology, measurement, and research methods; she is currently Professor Emerita of Psychological

Sciences at UNC. Dr. Ormrod has published numerous research articles but is probably best known for this book and several other textbooks: *Human Learning* (7th ed., 2016); *Educational Psychology: Developing Learners* (8th ed., 2014); *Essentials of Educational Psychology* (4th ed., 2015); *Our Minds, Our Memories: Enhancing Thinking and Learning at All Ages* (2011); and *Child Development and Education* (with Teresa McDevitt; 5th ed., 2013).

## **Users Review**

### **From reader reviews:**

#### **Holly Taylor:**

Information is provisions for anyone to get better life, information nowadays can get by anyone with everywhere. The information can be a knowledge or any news even a concern. What people must be consider while those information which is within the former life are difficult to be find than now's taking seriously which one works to believe or which one the resource are convinced. If you have the unstable resource then you obtain it as your main information you will see huge disadvantage for you. All of those possibilities will not happen throughout you if you take *Practical Research: Planning and Design* as your daily resource information.

#### **Nicole Rockwood:**

Spent a free time and energy to be fun activity to try and do! A lot of people spent their down time with their family, or their very own friends. Usually they doing activity like watching television, gonna beach, or picnic from the park. They actually doing same every week. Do you feel it? Do you need to something different to fill your own personal free time/ holiday? Could possibly be reading a book can be option to fill your cost-free time/ holiday. The first thing that you ask may be what kinds of book that you should read. If you want to try look for book, may be the e-book untitled *Practical Research: Planning and Design* can be fine book to read. May be it is usually best activity to you.

#### **Judith Tate:**

A lot of people always spent their free time to vacation or even go to the outside with them loved ones or their friend. Do you realize? Many a lot of people spent they free time just watching TV, or playing video games all day long. If you would like try to find a new activity this is look different you can read some sort of book. It is really fun to suit your needs. If you enjoy the book that you read you can spent all day long to reading a publication. The book *Practical Research: Planning and Design* it is very good to read. There are a lot of those who recommended this book. We were holding enjoying reading this book. When you did not have enough space to create this book you can buy the particular e-book. You can m0ore quickly to read this book from a smart phone. The price is not to cover but this book features high quality.

#### **Michael Medellin:**

What is your hobby? Have you heard in which question when you got students? We believe that that issue was given by teacher to the students. Many kinds of hobby, All people has different hobby. And you know

that little person such as reading or as reading through become their hobby. You have to know that reading is very important along with book as to be the point. Book is important thing to include you knowledge, except your own teacher or lecturer. You will find good news or update with regards to something by book. A substantial number of sorts of books that can you decide to try be your object. One of them is actually Practical Research: Planning and Design.
