Forage Evaluation in Ruminant Nutrition (Cabi) By D I Givens, Emyr Owen, Roger F E Axford

Current pressures to maximize the use of forages in ruminant diets have renewed interest in fast, inexpensive methods for the estimation of their nutritional value. As a result, a wide variety of biological and physiochemical procedures have recently been investigated for this purpose. This book is the single definitive reference volume on the current status of research in this area.

*Covers all forages eaten by ruminant animals
