

Real World Algebra

By Edward Zaccaro

Real World Algebra By Edward Zaccaro

Algebra is often taught abstractly with little or no emphasis on what algebra is or how it can be used to solve real problems. Just as English can be translated into other languages, word problems can be "translated" into the math language of algebra and easily solved. Real World Algebra explains this process in an easy to understand format using cartoons and drawings. This makes self-learning easy for both the student and any teacher who never did quite understand algebra. Includes chapters on algebra and money, algebra and geometry, algebra and physics, algebra and levers and many more. Designed for children in grades 4-9 with higher math ability and interest but could be used by older students and adults as well. Contains 22 chapters with instruction and problems at three levels of difficulty.

Editorial Review

Review

"If you've been asked by students the inevitable question, 'When will we use this?' this book is for you." --
Arlie Willems, Associate Professor of Education, Mount Mercy College

"Students realize that mathematics is more than basic facts and memorized procedures. This book uses the world as its stage." -- *Cheryl Werner, Teacher of talented and gifted*

About the Author

Ed and is a popular presenter at math, homeschool and gifted education conferences around the country and has approached gifted education as a parent, teacher, and school board member. His students will testify to his ability to make math fun and challenging for them as well as his unique sense of humor which comes through in his classes and workshops. Ed has taught students of all ages and abilities since graduating from Oberlin College in 1974. He holds an Iowa teaching certificate with K-12 endorsement in Gifted Education and a Masters degree in Gifted Education from the University of Northern Iowa. Ed is the author of several books for mathematically gifted children.

Users Review

From reader reviews:

Cassandra Martin:

What do you concentrate on book? It is just for students since they are still students or that for all people in the world, exactly what the best subject for that? Just simply you can be answered for that question above. Every person has distinct personality and hobby for each other. Don't to be obligated someone or something that they don't desire do that. You must know how great in addition to important the book Real World Algebra. All type of book is it possible to see on many methods. You can look for the internet resources or other social media.
