The Globalization of Nothing 2 By George Ritzer

The Globalization of Nothing is back in a revised and completely updated **Second Edition**. In this reconceptualized volume, author George Ritzer focuses his attention squarely on the processes of globalization and how they relate to McDonaldization. This revision is shorter, more concise, and spends much less space on the Nothing-Something continuum that he introduced in the *First Edition*.

Editorial Review

Review

"This edition is a shorter, tighter, and more focused book that deals focally and directly with globalization, at least as it relates to nothing and something. Readers will come away from this revision with not only a new way of looking at globalization but also a sense of the problems posed by the globalization of nothing and the need to find ways to deal with its pernicious aspects." (Savannah Jones 2007-04-12)
