The Living Energy Universe By Gary E. R. Schwartz, Linda G. S. Russek

With *The Living Energy Universe*, Gary Schwartz and Linda Russek explode the popular notion that science and spirituality are forever fated to be at odds. In fact, the University of Arizona scientists' model of Universal Living Memory is permanently reconfiguring both the scientific *and* spiritual landscape.

Walking you through their own journey of discovery as well as introducing the research that got them there, Schwartz and Russek present stunning yet sober evidence that:

- every idea and awareness ever experienced throughout time is still contained in the memory of the universe,
- consciousness and the soul survive our body's death,
- god exists—and is evolving.

Offering new fuel for the faithful, fresh insights for the undecided and experimental evidence for the skeptical, these profound and controversial conclusions will continue to inspire new research into realms once thought beyond the domain of science.
