The Poetical Works of Geoff. Chaucer: The Miscellaneous Pieces from Urry'S Edition 1721 : The Canterbury Tales from Tyrwhitt'S Edition 1775, Volume 6 By Geoffrey Chaucer, John Urry

This book was originally published prior to 1923, and represents a reproduction of an important historical work, maintaining the same format as the original work. While some publishers have opted to apply OCR (optical character recognition) technology to the process, we believe this leads to sub-optimal results (frequent typographical errors, strange characters and confusing formatting) and does not adequately preserve the historical character of the original artifact. We believe this work is culturally important in its original archival form. While we strive to adequately clean and digitally enhance the original work, there are occasionally instances where imperfections such as blurred or missing pages, poor pictures or errant marks may have been introduced due to either the quality of the original work or the scanning process itself. Despite these occasional imperfections, we have brought it back into print as part of our ongoing global book preservation commitment, providing customers with access to the best possible historical reprints. We appreciate your understanding of these occasional imperfections, and sincerely hope you enjoy seeing the book in a format as close as possible to that intended by the original publisher.

About the Author

Often referred to as the father of English poetry, Geoffrey Chaucer was a fourteenth-century philosopher, alchemist, astrologer, bureaucrat, diplomat, and author of many significant poems. Chaucer's writing was influential in English literary tradition, as it introduced new rhyming schemes and helped develop the vernacular tradition the use of everyday English rather than the literary French and Latin, which were common in written works of the time. Chaucer's best-known and most imitated works include The Canterbury Tales, Troilus and Criseyde, The Book of the Duchess, and The House of Fame.

His main research in recent years has been in advocating and developing a new paradigm for the social sciences, the new mobilities paradigm
