

Bundle: Introduction to Statistics and Data Analysis, 5th + Enhanced WebAssign Printed Access Card for Math & Sciences, Multi-Term Courses

By Roxy Peck, Chris Olsen, Jay L. Devore

Bundle: Introduction to Statistics and Data Analysis, 5th + Enhanced WebAssign Printed Access Card for Math & Sciences, Multi-Term Courses
By Roxy Peck, Chris Olsen, Jay L. Devore

Roxy Peck, Chris Olsen, and Jay Devore's new edition uses real data and attention-grabbing examples to introduce students to the study of statistics and data analysis. Traditional in structure yet modern in approach, this text guides students through an intuition-based learning process that stresses interpretation and communication of statistical information. Simple notation--including frequent substitution of words for symbols--helps students grasp concepts and cement their comprehension. Hands-on activities and interactive applets allow students to practice statistics firsthand. INTRODUCTION TO STATISTICS AND DATA ANALYSIS, 2e includes updated coverage of most major technologies, as well as expanded coverage of probability.

Editorial Review

About the Author

Roxy Peck is Emerita Associate Dean of the College of Science and Mathematics and Professor of Statistics Emerita at California Polytechnic State University, San Luis Obispo. A faculty member at Cal Poly from 1979 until 2009, Roxy served for six years as Chair of the Statistics Department before becoming Associate Dean, a position she held for 13 years. She received an M.S. in Mathematics and a Ph.D. in applied statistics from the University of California, Riverside. Roxy is nationally known in the area of statistics education, and she was presented with the Lifetime Achievement Award in Statistics Education at the U.S. Conference on Teaching Statistics in 2009. In 2003, she received the American Statistical Association's Founder's Award, recognizing her contributions to K-12 and undergraduate statistics education. She is a Fellow of the American Statistical Association and an elected member of the International Statistics Institute. Roxy served for five years as the Chief Reader for the Advanced Placement (AP) Statistics Exam and has chaired the American Statistical Association's Joint Committee with the National Council of Teachers of Mathematics on Curriculum in Statistics and Probability for Grades K-12 and the Section on Statistics Education. In addition to her texts in introductory statistics, Roxy is also co-editor of "Statistical Case Studies: A Collaboration Between Academe and Industry" and a member of the editorial board for "Statistics: A Guide to the Unknown, 4th Edition." Outside the classroom, Roxy likes to travel and spends her spare time reading mystery novels. She also collects Navajo rugs and heads to Arizona and New Mexico whenever she can find the time.

Chris Olsen taught statistics at George Washington High School in Cedar Rapids, Iowa, for over 25 years and currently teaches at Grinnell College. Chris is a past member (twice) of the AP Statistics Test Development Committee and has been a table leader at the AP Statistics reading for 12 years. He is a long-time consultant to the College Board and has led workshops and institutes for AP Statistics teachers in the United States and internationally. Chris was the Iowa recipient of the Presidential Award for Excellence in Science and Mathematics Teaching in 1986, a regional awardee of the IBM Computer Teacher of the Year in 1988, and received the Siemens Award for Advanced Placement in mathematics in 1999. Chris is a frequent contributor to and is moderator of the AP Teacher Community online. He is currently a member of the editorial board of "Teaching Statistics." Chris graduated from Iowa State University with a major in mathematics and philosophy. While acquiring graduate degrees at the University of Iowa, he concentrated on statistics, computer programming, and psychometrics. In his spare time he enjoys reading and hiking. He and his wife have a daughter, Anna, a Caltech graduate in Civil Engineering. Her field of expertise is quantification of uncertainty in seismic risk.

Jay Devore is Professor Emeritus of Statistics at California Polytechnic State University. He earned his undergraduate degree in Engineering Science from the University of California at Berkeley, spent a year at the University of Sheffield in England, and finished his Ph.D. in statistics at Stanford University. Jay previously taught at the University of Florida and at Oberlin College and has had visiting appointments at Stanford, Harvard, the University of Washington, New York University, and Columbia University. From 1998 to 2006, he served as Chair of the Cal Poly Statistics Department. In addition to this book, Jay has written several other widely used statistics texts for engineers and scientists and a book in applied mathematical statistics. He recently coauthored a text in probability and stochastic processes. He is the recipient of a distinguished teaching award from Cal Poly, is a Fellow of the American Statistical Association, and has served several terms as an Associate Editor of the "Journal of the American Statistical

Association." In his spare time, he enjoys reading, cooking and eating good food, tennis, and travel to faraway places. He is especially proud of his wife, Carol, a retired elementary school teacher, his daughter Allison, who has held several high-level positions in nonprofit organizations in Boston and New York City, and his daughter Teresa, a high school teacher in Brooklyn.

Users Review

From reader reviews:

Linda Banks:

As people who live in the modest era should be revise about what going on or details even knowledge to make these individuals keep up with the era which is always change and progress. Some of you maybe will certainly update themselves by reading books. It is a good choice for you but the problems coming to you is you don't know what kind you should start with. This Bundle: Introduction to Statistics and Data Analysis, 5th + Enhanced WebAssign Printed Access Card for Math & Sciences, Multi-Term Courses is our recommendation to cause you to keep up with the world. Why, as this book serves what you want and need in this era.

David Lau:

The particular book Bundle: Introduction to Statistics and Data Analysis, 5th + Enhanced WebAssign Printed Access Card for Math & Sciences, Multi-Term Courses has a lot of information on it. So when you read this book you can get a lot of benefit. The book was written by the very famous author. Tom makes some research previous to write this book. That book very easy to read you can get the point easily after perusing this book.

Irene Delong:

Don't be worry when you are afraid that this book may filled the space in your house, you might have it in e-book way, more simple and reachable. This particular Bundle: Introduction to Statistics and Data Analysis, 5th + Enhanced WebAssign Printed Access Card for Math & Sciences, Multi-Term Courses can give you a lot of friends because by you taking a look at this one book you have issue that they don't and make a person more like an interesting person. This kind of book can be one of a step for you to get success. This e-book offer you information that probably your friend doesn't recognize, by knowing more than other make you to be great individuals. So , why hesitate? Let's have Bundle: Introduction to Statistics and Data Analysis, 5th + Enhanced WebAssign Printed Access Card for Math & Sciences, Multi-Term Courses.

Melinda Brown:

Publication is one of source of understanding. We can add our understanding from it. Not only for students but in addition native or citizen will need book to know the change information of year to be able to year. As we know those books have many advantages. Beside we add our knowledge, also can bring us to around the world. With the book Bundle: Introduction to Statistics and Data Analysis, 5th + Enhanced WebAssign Printed Access Card for Math & Sciences, Multi-Term Courses we can take more advantage. Don't you to be

creative people? Being creative person must prefer to read a book. Only choose the best book that suited with your aim. Don't always be doubt to change your life with this book Bundle: Introduction to Statistics and Data Analysis, 5th + Enhanced WebAssign Printed Access Card for Math & Sciences, Multi-Term Courses. You can more pleasing than now.
